

DSPS-*Prominent*[®]

The next generation in head, neck and shoulder immobilization

* Patent pending

DSPS-*Prominent*[®] is the latest advancement in the renowned Double Shell Positioning System (DSPS[®]) product line.

With its unique cantilevered frame and expansion of the treatment area to the full head, neck and shoulder region,

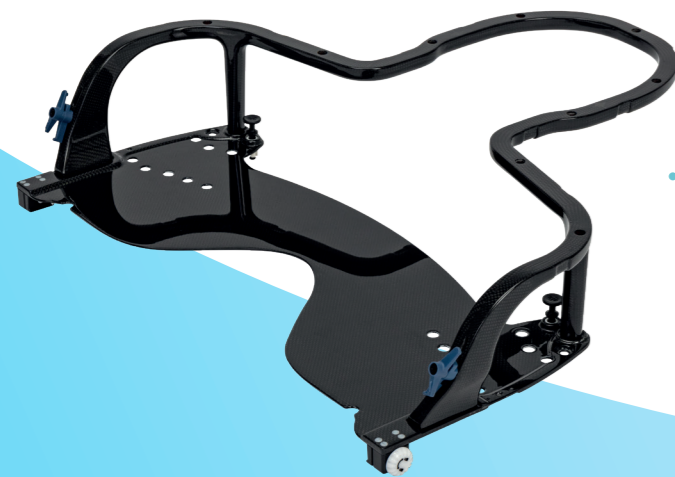

DSPS-*Prominent*[®] offers personalized comfort and high treatment accuracy.

DSPS-*Prominent*[®] baseplate

Following the launch of the MR Safe DSPS-*Prominent*[®] baseplate, MacroMedics is introducing the Carbon Fiber version.

Features include:

- Cantilevered frame which ensures 360° of freedom.
- 100% personalized patient positioning for the head, neck and shoulders.
- Lightweight and user-friendly.
- Sleek design which enables reference-frame compatibility.

DSPS-*Prominent*[®] Cradles

In addition to the DSPS-*Prominent*[®] Baseplate, various DSPS-*Prominent*[®] Cradles are available to dock to your existing MacroMedics solutions.

Clinical Advantages

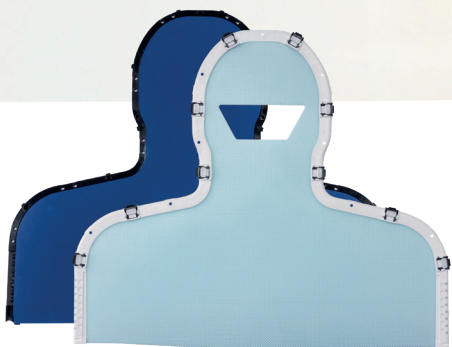

- High precision immobilization.
- Suitable for use with all common imaging and treatment modalities.
- Use of patented thermoplastic material with no shrinkage.
- The target area is expanded to the total head, neck and shoulder area.
- Optimized patient comfort and accurate reproducibility.
- Enabling set-up and treatment uniformity.
- Variety of mask combinations available.
